CONTENTS.

- AALSMEER (W. C.) and K. F. WENCKEBACH. On the nature of cardiac affection in beriberi patients. 656.
- ABSTANDSFORMEL (Ueber eine) in der Theorie der orthogonalen Differentialinvarianten der Kurven des R_n . 125.
- ACID (The reduction of α -eleostearic) (The linoleic acid 10.12 and the oleic acid 11). 238.
- ACIDS. (Optically active α -arsoncarboxylic) 301.
- ACIPENSER RUTHENUS. Vide: STERLET.
- ADDENS (J. L.). The eye-muscle nerves of petromyzonts, especially in their general morphological significance. 733.
- ALEXANDERSCHEN DUALITÄTSSATZES. (Eine Verallgemeinerung des) 899.
- ALEXANDROFF (PAUL). (PAUL URYSOHN †. Ueber Räume mit verschwindender erster Brouwerscher Zahl. Rewritten by) 808.
- ALKALINE ROCKS (On the age of) from the island of Timor. 56.
— of the volcano Merapi (Java) and the origin of these rocks. 492.
- ALLENE TYPE. (Optical resolution of a spirocyclic compound of the) 370.
- AMMONIUMSULPHATE CRYSTALS (The principal susceptibilities of manganese) at low temperatures. 346.
- Anatomy. C. J. VAN DER HORST: "A cutaneous branch of the facial nerve in a teleost". 24.
— C. U. ARIËNS KAPPERS: "The influence of the cephalization coefficient and body size upon the form of the forebrain in mammals". 65.
— IRMARITA KELLERS PUTNAM: "The proportion of cerebellar to total brain weight in mammals". 155.
— W. MOOY: "On the developmental history of the Müllerian duct in the sterlet (Acipenser ruthenus)". 339.
— B. BROUWER, G. J. VAN HEUVEN and A. BIEMOND: "Experimentell-anatomische Untersuchungen über die optischen Systeme im Gehirn". 603.
— J. L. ADDENS: "The eye-muscle nerves of petromyzonts, especially in their general morphological significance". 733.
— H. H. CHARLTON: "A gland-like ependymal structure in the brain". 823.
— E. KEENAN: "The phylogenetic development of the substantia gelatinosa Rolandi". Part I. Fishes. 837.
- Anatomy (Pathological). A. J. F. OUDENDAL: "Localisation of the tuberculous lesions in Javanese and Chinese inhabitants of Java". 269.
- ANOPHELISM (On) without malaria in the vicinity of Amsterdam. (2nd communication). 531.
- ANTIGENIC STRUCTURE and specificity. 993.
- ARGON (Ar II). (The spectrum of ionized) 593.
— (On the structure of the spectrum of ionized) 771.

- ARGON (Ar II). (The ZEEMAN-effect of the spectrum of ionized) 780.
— (On the anomalous *g*-values in the spectrum of ionized) (Ar II). 1041.
- ARIËNS KAPPERS (C. U.) Vide: KAPPERS (C. U. ARIËNS).
- α -ARSONCARBOXYLIC ACIDS. (Optically active) 301.
- ATCHEEN. (Concerning the tertiary of) 300.
- ATMOSPHERES. (The influence of pressure on the electrical conductivity of gold up to 1000) 50.
— (Isotherms of helium at ~ 183.0 and $\sim 201.5^{\circ}$ C. and pressures of 3 to 8) 404.
— (Isotherms of helium between $\sim 103.6^{\circ}$ C. and $\sim 259.0^{\circ}$ C. and at pressures of 1.5 to 14) 408.
— (Isotherms of hydrogen at temperatures of $\sim 225.5^{\circ}$ C. to $\sim 248.3^{\circ}$ C. and pressures of 1.6 to 4.2) 413.
- ATRIO-VENTRICULAR BUNDLE. (On the contractility of the) 679.
- AUTOMATIN ACTION. (Radiated vitamin B and) 258.
- BACILLI TYPE BTTx (On the transmuted tubercle) and their significance for the diagnosis and the therapy of tuberculosis. 387.
- BACKER (H. J.) en C. H. K. MULDER. Optically active α -arsoncarboxylic acids. 301.
— and H. B. J. SCHURINK. Optical resolution of a spirocyclic compound of the allene type. 370.
- BACTERIOLOGY. C. H. H. SPRONCK and W. HAMBURGER; "On the transmuted tubercle bacilli type BTTx and their significance for the diagnosis and the therapy of tuberculosis". 387.
— JAN SMIT: "Von dem Stoffwechsel und der Verbreitung der Gärungssarcinen. (Sarc. ventriculi GOODSR und Sarc. maxima LINDNER)". 421.
— J. J. VAN LOGHEM: "Antigenic structure and specificity". 993.
- BAKKER (C. J.), T. L. DE BRUIN and P. ZEEMAN. The ZEEMAN effect of the spectrum of ionized argon (Ar II), 780.
- BAKKER (C. J.). On the anomalous *g*-values in the spectrum of ionized argon (Ar II). 1041.
- BALEN WALTER (B. C. VAN). Vide: WALTER (B. C. VAN BALEN).
- BARIUM (On the symmetry and structure of the cubic nitrates of calcium, strontium) and lead. 651.
- BELLIS PERENNIS. (The influence of the growth-promoting substances on decapitated flower-stalks of) 59.
- BERIBERI PATIENTS. (On the nature of cardiac affection in) 656.
- BEZOUT. (On HILBERT's function, series of composition of ideals and a generalisation of the theorem of) 749.
- BIEMOND (A.), B. BROUWER and G. J. VAN HEUVEN. Experimentell-anatomische Untersuchungen über die optischen Systeme im Gehirn. 603.
- BIEZENO (C. B.) and H. HENCKY. On the general theory of elastic stability. 569:
II. 579.
- BILINEAR CONGRUENCE (Representation of a) of twisted cubics. 244.
- BIOCHEMISTRY. A. J. KLUYVER and A. P. STRUYK: "The first phases of the chemistry of the hexoses" (2nd Part). 882.
- BIQUADRATIC CURVES (Derivation of some numbers relating to the system of) that pass through five points lying in an R₄. 620.

- BIQUADRATIC CURVES (A representation of a complex of) of the first kind on point space. 958.
- BISÉCANTES. (Sur la congruence formée par les cubiques gauches ayant cinq) 1001.
- BLUMENDAL (H. B.) and F. M. JAEGER. On the spatial arrangement and rotatory dispersion of optically active complex salts of cobalt and rhodium. 637.
- BODY SIZE (The influence of the cephalization and) upon the form of the forebrain in mammals. 65.
- BOEKENOOGEN (H. A.), N. H. KOLKMEIJER and W. J. D. VAN DOBBENBURGH. Determination by X-rays of density and axial ratio of hexagonal silver iodide. 1014.
- BOER (J. H. DE). Adsorption of iodine on calciumfluoride. 906.
- BOER (S. DE). Investigation on the function of the heart of *Maja verrucosa*. 894.
- BÖSEKEN (J.) and J. VAN KRIMPEN. The reduction of α -eleostearic acid. (The linoleic acid 10.12 and the oleic acid 11). 238.
- BORELIUS (G.), W. H. KEESOM and C. H. JOHANSSON. Measurement of the thermo-electric THOMSON-effect down to the temperature of liquid hydrogen. 1046.
- Botany H. F. WATERSHOOT: "Results of the temperature during flower-formation for early Hyacinths. ('Innocence and la Victoire')". 31.
 — INA E. UYLDERT: "The influence of growth-promoting substances on decapitated flower-stalks of *Bellis perennis*". 59.
 — O. POSTHUMUS: "Notes on Pteridophyta from Djambi, Sumatra", 95.
 — O. POSTHUMUS: "Some remarks concerning the remains, which have been described as fossil fern-stems and petioles". 230.
 — A. SEYBOLD: "Zur Klärung des Xerophytenproblems". 248
 — J. PH. PFEIFFER and F. C. VAN HEURN: "Some fossil woods from Java not yet described". 1005.
- BOTTEMA (O.). The introduction of coordinates into projective geometry. 1076.
- BRAIN. (A gland-like ependymal structure in the) 823.
- BRAIN WEIGHT (The proportion of cerebellar to total) in mammals. 155.
- BROUWER (B.), G. J. VAN HEUVEN and A. BIEMOND. Experimentell-anatomische Untersuchungen über die optischen Systeme im Gehirn. 603.
- BROUWER (H. A.). On the age of alkaline rocks from the island of Timor. 56.
 — Alkaline rocks of the volcano Merapi (Java) and the origin of these rocks. 492.
- BROUWER (L. E. J.). Intuitionistische Betrachtungen über den Formalismus. 374.
 — Beweis dass jede Menge in einer individualisierten Menge enthalten ist. 380.
 — Zur Geschichtschreibung der Dimensionstheorie. 953.
- BROUWERSCHER ZAHL. (Ueber Räume mit verschwindender erster) 808.
- BRUIN (T. L. DE). The spectrum of ionized neon (Ne II). First communication. 2;
 Second communication. 593.
 — On the structure of the spectrum of ionized argon (Ar II). 771.
 — P. ZEEMAN and C. J. BAKKER. The ZEEMAN-effect of the spectrum of ionized argon (Ar II). 780.
- BUCK (A. DE), E. SCHOUTE and N. H. SWELLENGREBEL. On anophelism without malaria in the vicinity of Amsterdam. (2nd communication) 531.
- BUNDLE. (On the contractility of the atrio-ventricular) 679.

- BURGERS (J. M.). On OSEEN's theory for the approximate determination of the flow of a fluid with very small friction along a body. 433.
- BIJTEL (J. H.) and M. W. WOERDEMAN. On the development of the tail in the amphibian embryo. 1030.
- CALCIUM (On the symmetry and structure of the cubic nitrates of) strontium, barium and lead. 651
- CALCIUMFLUORIDE. (Adsorption of iodine on) 906.
- CALDERA-PROBLEM (On a new basis of solution of the) and some associated phenomena. 179. II. 199.
- CARDIAC AFFECTION (On the nature of) in beriberi patients. 656.
- CEPHALIZATION COEFFICIENT (The influence of the) and body size upon the form of the forebrain in mammals. 65.
- CEREBELLUM. (Annotations on the physiology and the anatomy of a dog living 38 days without both hemispheres of the cerebrum and without) 332.
- CEREBRUM (Annotations on the physiology and the anatomy of a dog living 38 days without both hemispheres of the) and without cerebellum. 332.
- CHANGE OF COLOUR (On the) of crystals at low temperatures. 353.
- CHARLTON (H. H.). A gland-like ependymal structure in the brain. 823.
- Chemistry. A. J. ULTEE: "The essential oil from Gastrochilus panduratum Ridl." 62.
— F. A. H. SCHREINEMAKERS and B. C. VAN BALEN WALTER: „Osmosis of ternary liquids" Experimental part I. 113. II. 169. III. 560.
— N. H. KOLKMEIJER; "Physical purity and powder Röntgenogram". 151.
— J. BÖSEKEN and J. VAN KRIMPEN: "The reduction of α -eleostearic acid. (The linoleic acid 10.12 and the oleic acid 11)". 238.
— H. J. BACKER and C. H. K. MULDER: "Optically active α -arsoncarboxylic acids". 301.
— H. J. BACKER and H. B. J. SCHURINK: "Optical resolution of a spirocyclic compound of the allene type". 370.
— F. A. H. SCHREINEMAKERS: „Osmosis of ternary liquids". General considerations. V. 459; VI. 811; VII. 923.
— F. M. JAEGER and H. B. BLUMENDAL: "On the spatial arrangement and rotatory dispersion of optically active complex salts of cobalt and rhodium". 637.
— F. M. JAEGER and F. A. VAN MELLE: "On the symmetry and structure of the cubic nitrates of calcium, strontium, barium and lead". 651.
— F. H. COHEN: "Velocities of nitration" (Provisional communication). 692.
- CLAY (J.). Penetrating radiation. II. 1091.
- COBALT (On the spatial arrangement and rotatory dispersion of optically active complex salts of) and rhodium. 637.
- COEFFICIENT (The influence of the cephalization) and body size upon the form of the forebrain in mammals. 65.
- COHEN (F. H.) Velocities of nitration. (Provisional communication). 692.
- COMPLEX (The representations of a linear ray) on point-space that associate quadratic surfaces to the bilinear congruences of the complex. 701.
— (A representation of a) of biquadratic twisted curves of the first kind on point space. 958.
- CONDUCTIVITY (The influence of pressure on the electrical) of gold up to 1000 atmospheres. 50.
— (Measurements on the disturbance of the supra-) of thallium by magnetic fields. 687

- CONFIGURATION (On a) of ten lines in space. 715.
- CONGRUENCE (Representation of a bilinear) of twisted cubics. 244.
- (The) of the twisted cubics that cut five given lines twice. 454.
 - (Two representations of the) of REYE. 626.
 - (Sur la) formée par les cubiques gauches ayant cinq bisécantes. 1001.
- CONGRUENCES (Linear) of twisted cubics that cut at least one fixed line twice. 629.
- (The representations of a linear ray complex on point-space that associate quadratic surfaces to the bilinear) of the complex. 701.
- CONNEXIONS. (On non-holonomic) 291.
- CONSTANT (On the change of the dielectric) of liquid helium with the temperature. 81.
- (New measurements about the way in which the dielectric) of liquid helium depends on the temperature. 800.
- CONTRACTILITY (On the) of the atrio-ventricular bundle. 679.
- CONVERGENCE (On the) of continued fractions. 870.
- COORDINATES (The introduction of) into projective geometry. 1076.
- CRAY-FISH. (About the influence of the nerve-centres on the antagonistic neuro-muscular systems in the periphery of the) 855.
- CRYSTALS (The principal susceptibilities of manganese ammonium sulphate) at low temperatures. 346.
- (On the change of colour of) at low temperatures. 353.
- CUBICS. (Representation of a bilinear congruence of twisted). 244.
- (The congruence of the twisted) that cut five given lines twice. 454.
 - (Linear congruences of twisted) that cut at least one fixed line twice. 629.
- CUBIQUES GAUCHES (Sur la congruence formée par les) ayant cinq bisécantes. 1001.
- CURAÇOA. (On tertiary foraminifera from) 1061.
- CURVES (Derivation of some numbers relating to the system of biquadratic) that pass through five points lying in an R_4 . 620.
- (A representation of a complex of biquadratic twisted) of the first kind on point space. 958.
- CUTANEOUS BRANCH (A) of the facial nerve in a teleost. 24.
- CYLINDERS (The behaviour of thick walled) under high pressures. 552.
- DEKKER (J. W.). On a condition for the equilibrium of a liquid with its vapour given by BOLTZMANN, and the relation between this condition and the thermodynamic potential. 973.
- DENSITY (Determination by X-rays of) and axial ratio of hexagonal silver iodide. 1014.
- DERIVATES (District formation, mixing or fusion of myotomic) in dimeric mammalian musles? Uni- or biradicular innervation?
- DESARGUES. (Ueber Verallgemeinerungen des Satzes von) 128.
- DIELECTRIC CONSTANT (On the change of the) of liquid helium with the temperature. 81.
- (New measurements about the way in which the) of liquid helium depends on the temperature. 800.
- DIET and reproduction. III. 721.
- DIFFERENTIALINVARIANTEN (Ueber eine Abstandsformel in der Theorie der orthogonalen) der Kurven des R_4 . 125.
- DIMENSIONSTHEORIE. (Zur Geschichtschreibung der) 953.

- DISSIMILATION OF THE HEXOSES. (The first phases of the chemistry of the) 2nd Part). 882.
- DISTRICT FORMATION, mixing or fusion of myotomic derivates in dimeric mammalian muscles? Uni- or biradicular innervation? 947.
- DISTURBANCE (Measurements on the) of the supra-conductivity of thallium by magnetic fields. 687.
- DJAMBI, Sumatra. (Notes on Pteridophyta from) 95.
- DOBBENBURGH (W. J. D. VAN), H. A. BOEKENOOGEN and N. H. KOLKMEIJER. Determination by X-rays of density and axial ratio of hexagonal silver iodide. 1014.
- DOG. (Experimental contributions to the knowledge concerning the segmental innervation of the abdominal muscles in the) (1st communication). General statement of problem and I. The M. Rectus Abdominis. 219.
- Annotations on the physiology and the anatomy of a) living 38 days without both hemispheres of the cerebrum and without cerebellum. 332.
- DUALITÄTSSATZES. (Eine Verallgemeinerung des Alexanderschen) 899.
- DUBOIS (EUG.). The law of the necessary phylogenetic perfection of the psychoencephalon. 304.
- ELECTRONS (On the liberation of) from a metal surface by positive ions. 14.
- EMBRYO. (On the development of the tail in amphibia) 1030.
- Embryologie. J. H. BIJTEL and M. W. WOERDEMAN: "On the development of the tail in the amphibian embryo". 1030.
- EPENDYMAL STRUCTURE (A gland-like) in the brain. 823.
- EQUILIBRIUM (On a condition for the) of a liquid with its vapour given by BOLTZMANN, and the relation between this condition and the thermodynamic potential. 973.
- ETNA. (Die Laven vom) 660.
- EYE-MUSCLE NERVES (The) of petromyzonts, especially in their general morphological significance. 733.
- FERN-STEMS (Some remarks concerning the remains, which have been described as fossil and petioles. 230.
- FIELD OF FORCE. (Damped vibrations of a string in a homogeneous) 670.
- FIELDS. (Measurements on the disturbance of the supra-conductivity of thallium by magnetic). 687.
- FLORSCHÜTZ (F.) and C. H. OOSTINGH. A contribution to the knowledge of the fossil fauna and flora of Neede. 285.
- FLOWER-FORMATION (Results of the temperature during) for early hyacinths. 31.
- FLOWER-STALKS (The influence of growth-promoting substances on decapitated) of Bellis perennis. 59.
- FLUID (On OSEEN's theory for the approximate determination of the flow of a) with very small friction along a body. 433.
- FOLDED REGIONS. (Measurements on slickensides on planes of stratification in) 255.
- FORAMINIFERA (On tertiary rocks and) from North-Western Peru. 931.
— (On tertiary) from Curaçoa. 1061.
- FOREBRAIN (The influence of the cephalization coefficient and body size upon the form of the) in mammals. 65.
- FORMALISMUS. (Intuitionistische Betrachtungen über den) 374.
- FOSSIL FAUNA AND FLORA (A contribution to the knowledge of the) of Neede. 285.

- FOSSIL FERN-STEMS (Some remarks concerning the remains which have been described as) and petioles. 230.
- FOSSIL WOODS (Some) from Java not yet described. 1005.
- FRACTIONS. (On the convergence of continued) 870.
- FUNCTIONS. (On the limits of holomorphic) 254.
- GAEDE (W.) and W. H. KESOM. Methods and apparatus used in the Cryogenic Laboratory. XX. A high vacuum pump with great capacity. 985.
- GÄRUNGSSARCINEN. (Von dem Stoffwechsel und der Verbreitung der) (Sarc. ventriculi GOODSR und Sarc. maxima LINDNER). 421.
- GAS (The potential energy of the) in the oil bearing formations. 415.
— (Determination of the pressure in) containing strata. 418.
- GASLIFT. (Temperatures differences occurring in) 978.
- GASTROCHILUS PANDURATUM RIDL. (The essential oil from) 62.
- GEELS P. and A. MICHELS. The influence of pressure on the electrical conductivity of gold up to 1000 atmospheres. 50.
— and A. MICHELS. The best method of measurement of a resistance thermometer. 485.
— and A. MICHELS. Circuits for the measurement of resistance. 542.
- GEHIRN. (Experimentell-anatomische Untersuchungen über die optischen Systeme im) 603.
- GEOID. (A formula expressing the deflection of the plumbline in the gravity anomalies and some formulae for the gravity-field and the gravity-potential outside the) 315.
- Geology. H. A. BROUWER: "On the age of alkaline rocks from the island of Timor." 56.
— C. G. S. SANDBERG: "On a new basis of solution of the Caldera-problem and some associated phenomena." 179; II. 199.
— W. NIEUWENKAMP: "Measurements on slickensides on planes of stratification in folded regions". 255.
— K. MARTIN: "Concerning the tertiary of Atcheen." 300.
— J. VERSLUYS: "The potential energy of the gas in the oil bearing formations." 415.
— J. VERSLUYS: "Determination of the pressure in gas containing strata." 418.
— H. A. BROUWER: "Alkaline rocks of the volcano Merapi (Java) and the origin of these rocks". 492.
— W. F. GISOLF: "Die Laven vom Etna". 660.
— L. RUTTEN: "On tertiary rocks and foraminifera from North-Western Peru". 931.
— L. RUTTEN: "On tertiary foraminifera from Curaçoa." 1061.
— J. VERSLUYS: "Synclinal oil and unsaturated strata". 1086.
- GEOMETRY. (The introduction of coordinates into projective) 1076.
- GERADEN (Über eine Configuration von zehn) im projektiven R_3 . 133.
- GISOLF (W. F.). Die Laven vom Etna. 660.
- GODEAUX (LUCIEN). Sur la congruence formée par les cubiques gauches ayant cinq bisécantes. 1001.
- GRAVITY (A formula expressing the deflection of the plumb-line in the) anomalies and some formulae for the gravity-field and the gravity-potential outside the geoid. 315.
- GROWTH-PROMOTING (The influence of) substances on decapitated flower-stalks of *Bellis perennis*. 59.
- GRIJNS (G.), K. DE HAAN and J. A. VAN DER LOEFF. Diet and reproduction. III. 721.

- GULIK† (W. VAN) and W. H. KEESEM. The melting curve of hydrogen to 245 kg./cm.² 1059.
